BIOGRAPHY

Naughty Princess brings the dance floor heat, weaving beautiful eastern melodies over trap and hip hop beats, and delivers the freshest bass music with her unique style and energetic performance.

Naughty Princess has had a lifelong passion for dance music and started DJing in 2016 with her debut performance on the main stage at the Belasco Theatre LA. Very quickly, she became notorious for her ability to blend orchestral sounds and musical world elements from the east with the fattest of beats and bass drops! The years spent absorbing herself in music all over the world had already shaped her style, so right from the start, her sound was cohesive and distinctive, despite traversing a range of bass music genres. Evocative female vocals soar over rumbling 808s, violins build and crescendo and drop into gangsta beats, delicate sitar leads blend seamlessly into searing electronic riffs, and soon the dance floor is heaving and jumping, and also smiling because Naughty Princess sets are undeniably fun!

One of her main goals is to create that magical dance floor experience where people can really let loose, express themselves, and dance their hearts out! This experience is her biggest joy in life, and she also believes it to be deeply transformation for people to connect with their own inner joy and spark, their body and movement, and the amazing community who come together to share their love of music and get down so hard!

Naughty Princess is also passionate about empowering women in a very male-dominated music industry which has for too long disrespected and objectified women. Girls, in particular, are very excited to see a female DJ who can bring beautiful and feminine sounds into a scene that has been saturated with overly aggressive music, and at the same time have the chops to throw down a set so hard and dirty that everyone is sweating and fist-bumping by the end of the night! Naughty Princess encourages people to embrace their own regal nature, to treat each other like kings and queens, and create a safe place where women can express themselves any way they choose, whether it's elegantly refined or wildly sensual!

Naughty Princess has played at top events and festivals including Envision, Oregon Eclipse, Lightning in a Bottle, Northern Nights, Enchanted Forest Gathering, The Fillmore Denver, Alex Grey's CoSM NY, How Weird Street Fair, Abundance LA, Belasco Theatre LA, Ecstatic Dances in Oakland, LA, SLC and Hawaii, and also Canada and Australia.

Based in the LA area, Naughty Princess is all about bringing the sounds which light you up and inspire you to get down!!
